Art Unit: 2821

## **DETAILED ACTION**

## REMARKS

Examiner telephoned the Applicant's representative, Mr. Leslie S. Miller on 3/1/05 to discuss the drawings and the specification. Applicant's representative proposed the changes to the drawings and the specification, that was approved by Examiner. The case is now in condition for allowance.

## Allowable Subject Matter

1. The following is a statement of reasons for the indication of allowable subject matter: The claims are allowable over the art of record because the prior art does not teach a second region having a negative refractive index, the second region substantially surrounding the first region, such that radiation outside the second region is reproduced in the first region, and in combination with the remaining claimed limitations.

## Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Dunbar, Smith et al, Schultz et al and Lasky et al are cited as of interested and illustrated a similar structure to a communication device assembly.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tho G. Phan whose telephone number is 571-272-1826. The examiner can normally be reached on M-F, 9:30-6:00.

Application/Control Number: 10/706,586
